Moment of Meaning Capstone Project Check-In

Respond to each of the questions below, then save and upload your completed document to Bb. If needed, reference the [Moment of Meaning Capstone Project Assignment Sheet](#) found in the Weekly Units Bb folder for more information about your final project and presentation.

Thoughtful Reflection, Connect to Course Competencies & Learning Objectives

1. What have you learned about yourself this semester both in and outside of Gateway to Success? What events, moments, and people have shaped your experience so far? What successes and failures have been influential this semester/year?

I learned that your future is in your hands. I also learned not to procrastinate on assignments. If I have any problems with completing assignments, I should ask my instructor. If I need more help, I can use a tutor.

When responding to this prompt, address each of the four course competencies listed in the table on the next page and consider what it means to YOU to:

- be successful academically
- be connected with peers, faculty, and staff at Gateway
- be connected with resources on campus
- be a responsible and engaged student.

2. Which presentation format do you plan to use? (You can change your mind!)

I will write a two-page letter to my future self.

3. Do you have any questions?

No

Gateway to Success Course
